

JH Fit Suiting

JH SUIT FIT PREFERENCE

Our new JH Fit Suiting is designed to integrate seamlessly with the T.AP.E™ pre-appointment survey. During the survey, your Client answered questions regarding his fit preferences. His preference answers combined with his core measurements are used by T.AP.E™ to generate his JH Fit Sportcoat and Trouser profile.

$$\text{Preference} + \text{Core Measurements} = \text{Product Profile}$$

JH Trouser Profile

STEP 2: PANT FIT PREFERENCE

Step 2 Continued: Fit Preference

[Show me examples](#)

- The third fit preference question determines the taper of the pant from knee to ankle.

JH Fit Trouser Preference Examples

Slim Hip-Narrow ankle

Slim hips and thighs with our narrowest ankle.

Trim Hip – Tapered Ankle

Fitted through the hip and thigh without being restrictive. Slight taper from knee to hem

Classic Hip – Straight Ankle

More room in the hip and thigh. Straight leg with no taper knee to hem.

Trouser Preference – Slim Hip with Narrow Ankle

Our Slimmest trouser in hip and thigh with the narrowest ankle preference. Slightly lower rise than Trim preference.

Trouser Preference: Trim Hip with Tapered Ankle

Trim Preference is fitted through the hip and thigh without being restrictive. There is a Slight taper from knee to hem.

Trouser Preference – Classic Hip with Straight Ankle

Our most relaxed preference for the hip and thigh fit. Leg is straight with no taper from knee to ankle.

	Core Measurements	Ordered Measurements
Fit Preference		Trim
Waist	35.00	35.00
Hips	41.00	41.00
Waist Placement		Long
Right Outseam	42.50	42.50
Left Outseam	42.50	42.50
Advanced Alteration Options		

- At the top of the trouser profile the Client Fit Preference is indicated.
- The Trouser profile also contains many tool tips indicating finished garment measurements.

ADVANCED ALTERATIONS TROUSER

Advanced Alteration Options

	Core Measurements	Alteration Point
Front Rise Adjustment		0
Leg Opening Adjustment 		-2
Pattern 		Uni Block

- Advanced Alteration for trousers offers the Front Rise Adjustment and Leg Opening Adjustment.
- Leg Opening will be automatically recommended based on Client's Core measurements and Fit Preference
- To determine if your Client needs a Front Rise adjustment it is necessary to answer the additional questions in the Trouser Fit Quiz.
- Pattern indicates which pattern will be used based on size and preference.

Trouser Fit:

Optional T.A.P.E™ Preference Quiz

- By Launching the T.A.P.E. Assistant, you can access additional Fit Preference to further refine your Client's Trouser Fit.
- These questions are helpful for a Client with a specific trouser break preference or a Front Rise Adjustment.

TAPE Assistant
